EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin Jackson and Bruce Huling on 8/19/04.

The application has been amended as follows:

On pg. 4, line 33 change typographical error from: "contiguous?" to -continuous-
-.

Amend claim 29: A method of making a semiconductor structure, comprising the steps of: oxidizing sidewalls of cavities in a semiconductor material to form a continuous oxide layer between adjacent cavities, thereby forming a pillar of the semiconductor material; and etching the continuous oxide layer between said adjacent cavities.

The following is an examiner's statement of reasons for allowance: In re claims 29-30, Tsou (5,240,875) teaches a method of oxidizing sidewalls of cavities in a semiconductor material in order to form a pillar. However, prior art does not teach or suggest forming a continuous oxide layer between adjacent cavities during the oxidation and growth step of the semiconductor material.

In re claims 31-43, Tsou teaches forming a pillar with a semiconductor material below a surface of a substrate. However, prior art does not teach or suggest limitation of

forming a void by capping the pillar with a first dielectric material in *combination with* forming an electrical component over the void.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
